

Master degree for the nurse specialist

Why – For what - Who

Françoise Charnay-Sonnek
ESNO President

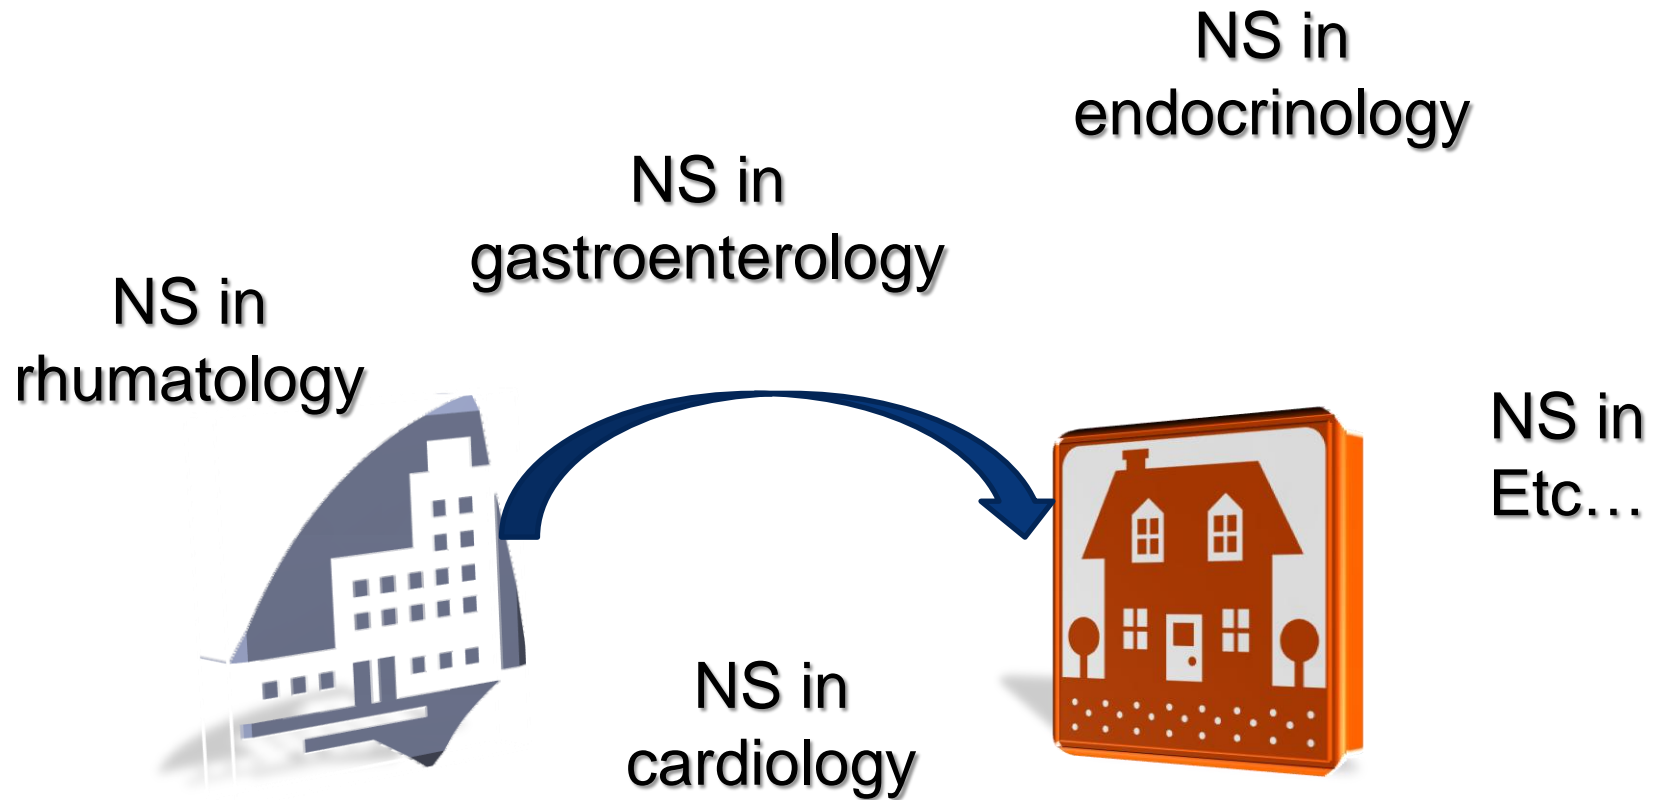

" The most persistent and pervasive problem in nursing is that nurses haven't been able to practice the way they've been taught and the way that enables them to make a difference in patients life »

Lea Curtin, DSc(h), RN, FAAN, is a clinical professor of nursing at the University of Cincinnati College of Nursing and Healthspeaking at ANA, conference on quality, safety and staffing, Orland, Florida, March 2016

Today

- Older population with comorbidities
- Patient with more complex health state
- Higher demand of health care services and physicians alone cannot respond to this demand
- Higher, sophisticated technologies
- Rising use of ambulatory surgery
- Growing trend of medication in form of oral therapies and/or subcutaneous injection

Today

Today

- WHO Health 2020
 - ✓ Accessibility of care
 - ✓ Health equality
 - ✓ Safety and quality of care
- No recognition of nurse specialist in Europe, no mention of nurse Specialist in the directive 2013/55/EU

Outcomes

- Need of recognition of nurse specialists at master level able to set a diagnosis, to prescribe, to make research
 - No dissociation between research and practice otherwise danger to create a gap between research and practice. Useless and costly
 - NS don't replace doctors, another profession between GCN and medical specialist
- Need of an harmonisation of the practice in form of CTF in order to permit an automatic recognition of the qualification of the nurse specialist and free mobility within the European MS

Tomorrow

Qualified specialist nurses with academically accredited training programs

Quality and Safety of care and mobility of workforce within Europe

-Recognised specialisation in
nursing

-Automatic recognition of
qualification

-Improved mobility

ESNO

- The European Specialist Nurses Organisation (ESNO) is the recognized and unified voice of specialist nurses in Europe
- Members of ESNO consist of individual European specialist nurses organizations

ESNO members

FINE -	European Federation of Nurse Educators
ENDA-	European Nurse Directors Association
<hr/>	
EDTNA/ERCA-	European Dialysis and Transplant Nurses Association / European Renal Care Association
EfCCNa-	European federation of Critical Care Nursing associations
EONS-	European Oncology Nursing Society

FEND-	Foundation of European Nurses in Diabetes
HORATIO-	European Psychiatric Nurses
IFNA-	International Federation of Nurse Anesthetists
EAUN -	European Association of Urology Nurses
ESGENA:	European Society of Gastroenterology and Endoscopy Nurses and Associate
EULAR:	European League Against Rheumatism / Nurses section
ESE:	European Society of Endocrinology nurses (candidate)
ERNA	European Respiratory Nurses Association (Candidate)
	<i>Cardio-Vascular (in process)</i>
	<i>Skinn & Dermatology (in process)</i>
	<i>Pediatric (in process)</i>

ESNO's partners and associates

EHPA	European Hospital Pharmacist Association,
UEMS	Union Européenne des médecins spécialistes/European Union of Specialist Medicine
EMA	European Medicine Agency
EFN	European Federation of Nurses
EUHWF	European Union of Health Workforce planning and forecasting
EPSU	European Federation of Public Service
HOPE	European Hospital and Healthcare Federation
HOSPEEM	Hospital and Healthcare Employer's Association
SPRINGER VERLAG	

**MULTI PROFESSIONAL
CONCEPT OF WORKING with
patients
Health Care Professionals
governmental bodies**

Value added of the specialist nurse

- patient satisfaction
- Reduced Waiting time
- Reduced rehospitalisation
- Quality and safety of care
- **SAME QUALITY OF CARE AS DOCTORS**
-

Agenda of ESNO

- Developing a common training Framework based on the definition of the core competences of the nurse specialist for the specialities, which are regulated in Europe
- Accreditation process with EAN
- Edition of Ebooks “principle of nursing in specialty” with Springer Verlag
- Organising every year alternately a summit and a congress

Definition of the nurse specialist

« The Nurse Specialist (NS) is an advanced practice Nurse prepared as a specialist within a clinical specialty at the master's, post master's or doctoral level »

The competences (e.g. document attached)

Specialist nurse mapping

- Mapping in 10 eligible countries:
 - the profile of nurse specialists in Europe
(status, content and structure of existing education/training and labour market information)
 - the mobility of nurse specialist in Europe
- Demonstrating the medical and economic added value of the common training framework training for specialist nurse with specific criteria in terms of safety and quality.
 - ➔ Starting with one specialty and transpose the model to other specialties

Conclusion

- Clarification of the position of the nurse specialist in Europe
- For each specialty definition of their own Framework according to the specificities of their specialty.
- Free movement within the member states Europe
- Safety and quality of care
- Quality and work satisfaction
