21ST CENTURY SKILLS IN THE HEALTH CARE SECTOR

6 Mega Trends

EUVECA Platform will relate the 7 HUBS

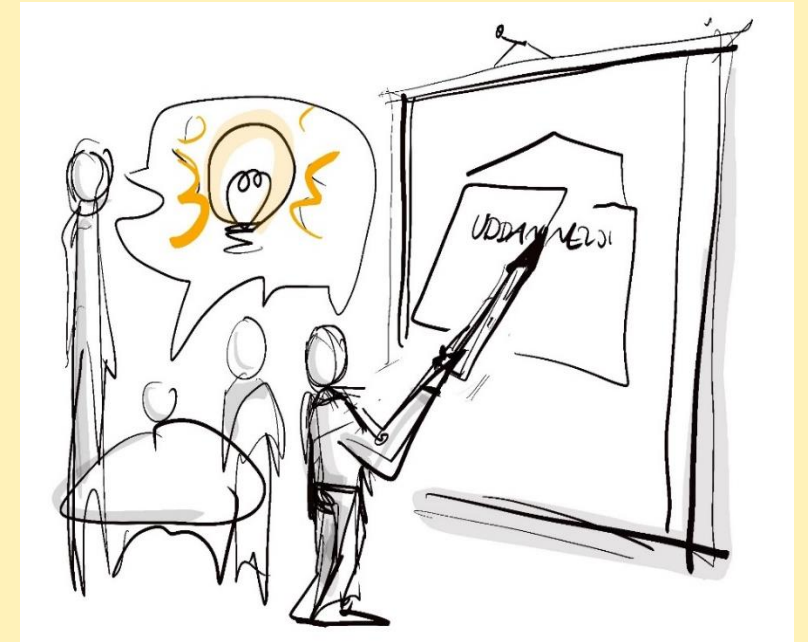

Where are we now?

- We have finalized the European baseline report
 - European Policy Analyses
 - Literature Study (also Grey Literature)
 - Interview with app. 4000 health care students and health care professionals from the 7 countries
 - Interview with regional stakeholders
- Based on the baseline report we are
 - Creating 7 Regional Hubs
 - Developing the platform
 - Developing the content of the platform
 - Looking into how we can make the platform sustainable

Developing the content of the platform

- 6 interregional working groups that develop ideas for the content related to each megatrend, such as....
 - Using storytelling in health education
 - Problem based learning concept
 - Action Bound on the use of AI
 - Simulation training scenarios and collaboration between simulation centers
 - Awareness course on climate change
 - Introduction to the V Model
 - Introduction to psychogeriatrics

What is our vision for the platform?

➤ Sustainability

- To become a part of the ECHAlliance (Global network)
- More than 70 member regions with established health eco systems
- Develop sustainability and financing model

➤ Activities

- Create an overview of education and training activities in member regions
- Supporting (blended) mobility activities among the member regions
- Increase focus on education and training as a means to create sustainability in the health care sector
- Breaking down the silos in the health care education system
 - Improved use of Micro credentials
- Exchange of experience and prevent inventing the wheel over and over again....
- Increase innovation opportunities among member regions
